

# NOAA Education Websites Redesign

---

Update to the NOAA Education Council

Marissa Jones and Kristen Jabanoski  
December 16, 2015

# Purpose

---

- Preview the redesigned [education.noaa.gov](https://education.noaa.gov)
- Discuss opportunities for Education Council involvement

# Background

---

- NOAA.gov is being redesigned. The new website:
  - Is organized around what makes sense to external audiences, not our internal organization structure.
  - Aims to contextualize, humanize, and engage.
  - Is a “front door” to NOAA.
- The Office of Education is the first program/office to migrate content to the new site.
  - Contract includes [www.education.noaa.gov](http://www.education.noaa.gov) and the [Office of Education](#) websites.

# Timeline

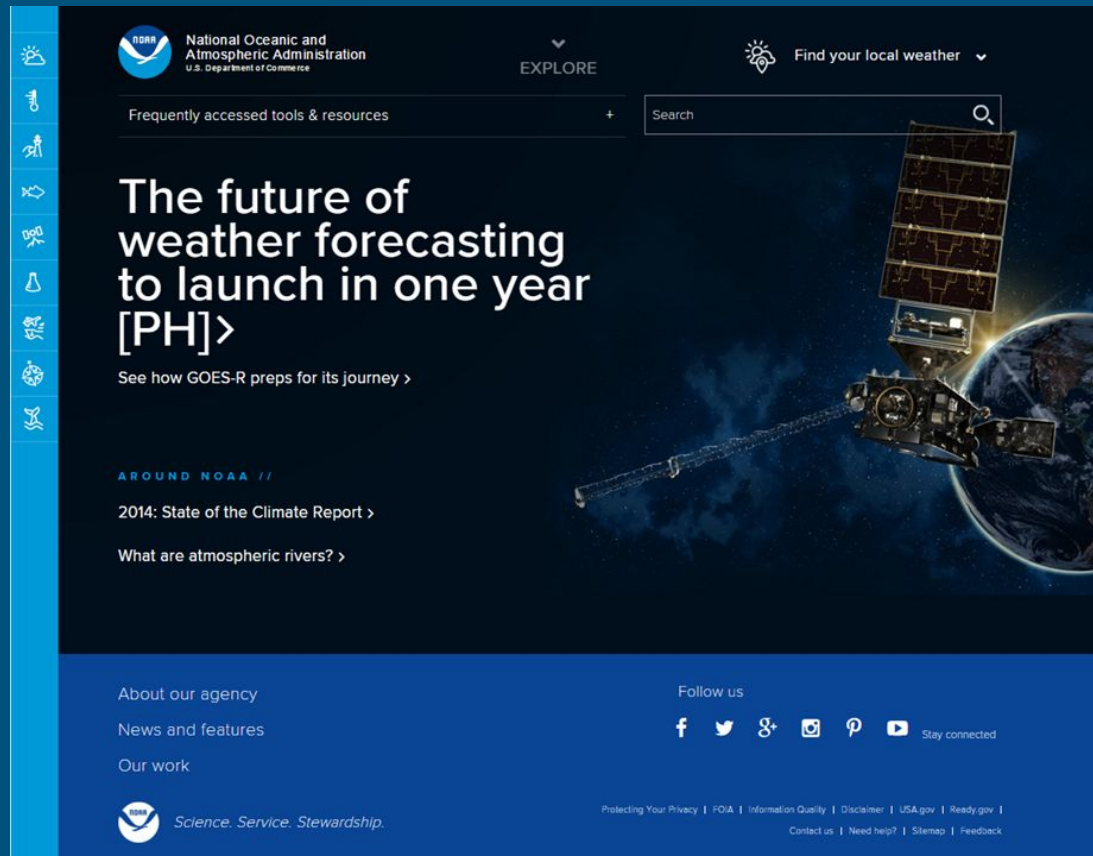

---

- Mid-October: Kick-off (discussed education redesign for the first time)
- Mid-November through mid-December: Reviewed and finalized designs
- December through Mid-February: Development company turns designs into a website
- Mid-February: Migrate content to new sites
- Mid-March: Contract ends!
